

Program:-

```
import javax.swing.*;
import java.awt.*;

/*<applet code=JTableEx.class height=500 width=500></applet>*/

public class JTableEx extends JApplet
{
    public void init()
    {
        Container c=getContentPane();
        c.setLayout(new BorderLayout());
        final String colhead[]={"ID" , "NAME" , "SALARY"};
        final Object
        data[][]={{ "101","Amit","670000" },{ "102","Jai","780000" },{ "101","Sachin","700000" }};
        JTable jt = new JTable(data,colhead);
        int h=ScrollPaneConstants.HORIZONTAL_SCROLLBAR_AS_NEEDED;
        int v=ScrollPaneConstants.VERTICAL_SCROLLBAR_AS_NEEDED;
        JScrollPane jsp = new JScrollPane(jt,v,h);
        c.add(jsp,BorderLayout.CENTER);
    }
}
```

Output:-

Applet Viewer: JTableEx.class

Applet

ID	NAME	SALARY
101	Amit	670000
102	Jai	780000
101	Sachin	700000
